ISBN : 978-0-646-49085-4

Editor : Professor M.B. Cortie
University of Technology, Sydney
michael.cortie@uts.edu.au

This year the event was organised and run by a team led by Professor Michael Cortie of the University of Technology Sydney, and Dr Chris Ling of the University of Sydney. The Wagga meetings have acquired an international reputation for being stimulating, egalitarian and informative, and the 2008 meeting was no exception. There were just over 100 attendees, of which 11 were from overseas. Every presenter at this meeting in Wagga Wagga was invited to submit a manuscript for the Conference Proceedings. Manuscripts submitted during the conference were each reviewed anonymously by 2 peers. The organisers would like to acknowledge and personally thank all of the referees for their time and effort reviewing the papers, it is greatly appreciated. We hope you enjoy reading this very informative Conference Proceeding, and we look forward to seeing you at Wagga Wagga, in 2009!

Prof. John Cashion of Monash received the 'Jacko' award for being the most regular attendee of the Wagga meetings over the years.

The coveted Lindsay Davis Cup awarded to the winning team at the Annual Trivia Night.

And this year it was a three-way-tie! Congratulations to the Galahs, the Wombats and Yabby Road.
